PROFILE

Dedicated Software Engineer with expertise in Java and .NET, delivering high-quality, scalable solutions. Skilled in requirements analysis, system architecture, and code optimization. Proven ability to align technical solutions with business goals, ensuring performance and maintainability. Adaptable team player with a result-driven approach, excelling in complex, multi-technology environments.

WORK EXPERIENCE

Software Engineer

Aug 2024-Present

PayMedia

[Tech Stack: Java, Spring Boot, Spring Data JPA, PostgreSQL, Docker, Kubernetes, AWS]

[Projects: DhiraaguPay, DhiraaguPay Merchant, One App by Commercial Bank Maldives]

- Contributed to major projects, ensuring successful execution under high-stakes conditions.
- Develop scalable APIs for a cloud fintech platform, enhancing deployment and efficiency integration.
- Work with microservices architecture, improving system modularity and enhancing overall reliability.
- Collaborate on cloud infrastructure setup, ensure seamless API integration, and monitor system performance for reliability.
- Developing and optimizing financial applications, ensuring security and scalability in fintech solutions.

Associate Software Engineer

Apr 2023-Aug 2024

Xeleris Inc.

[Tech Stack: Spring Boot, Spring Data JPA, Angular, MySQL] - [Projects: LoopNet]

- Developed APIs as a cloud fintech platform, enhancing scalability, streamlining deployment, and supporting increased transaction volumes.
- Implemented a microservices architecture, improving modularity, reducing maintenance complexity, and enhancing system reliability.
- Optimized database performance through caching and indexing, significantly improving query efficiency and reducing response times.

Intern Full Stack Developer

Jan 2023-Aug 2023

Institute Of Java Software Engineering

[Tech Stack: C#, ASP.NET, Dapper, ASP.NET, MS SQL, HTML, CSS, Angular]

[Projects: Blog Post Controller System, Point of Sale System]

- Developed a high-traffic web app using Java, Angular, Spring Boot, and MySQL, enhancing user engagement and ensuring reliable performance.
- Built a high-traffic website with MySQL, optimizing traffic flow and reducing load times.
- Created RESTful APIs for third-party integration, streamlining processes, enhancing functionality, and improving user satisfaction.
- Collaborated with cross-functional teams to deliver effective solutions, accelerating development cycles and enhancing delivery.

SKILLS

- Programming Languages:** Java, Python, JavaScript, TypeScript, C#
- Frameworks & Libraries:** Spring Boot, React, Node.js, Angular, ASP.Net
- Databases:** MySQL, PostgreSQL, SQL Server
- Cloud Platforms:** AWS, Azure
- Methodologies:** Agile Methodology
- Other Skills:** Docker, Kubernetes, Linux, GitHub

EDUCATION

Bachelor of Science in Engineering

2016-2021

Faculty of Engineering - University of Peradeniya

G.C.E. Advanced Level Examination

2015

Rajapaksa Central College

- Gained 2A and 1B passes.

PROFESSIONAL QUALIFICATIONS

- Associate Member, Institute of Engineers Sri Lanka
- Oracle Cloud Infrastructure 2025 Certified Foundations Associate
